Sponsorship Opportunities

The sport of Paraclimbing is rapidly growing, with the potential to be selected as a Paralympic Sport for LA 2028. There are currently very few competitive opportunities for adaptive climbers. The main adaptive climbing competition is the National Paraclimbing Championships, which takes place annually, but for most climbers, this is the one and only opportunity to compete. For a new competitive climber this is also an intimidating step up from practicing in their local climbing gym to competing on a National Level against the best in the country.

We intend to bridge the gap for competitive climbers and offer an opportunity to compete on a smaller scale but also to offer a chance for climbers working towards Nationals to gain valuable competition experience in the lead up. We are confident that this opportunity will greatly enhance the sport of Paraclimbing and increase the number of climbers competing.
